(54) Abstract Title
**IBM PC Compatible multi-chip module**

(57) A multi-chip module (10) and a chip set that comprises a plurality of the multi-chip modules. The multi-chip module (10) includes a plurality of functional circuits (40, 42, 36, 32, 34, 44, 28, 50, 48, 20, 26, 46, 30) provided on a substrate, the circuits (40, 42, 36, 32, 34, 44, 28, 50, 48, 20, 26, 46, 30) defining a plurality of signal inputs and outputs. The functional circuits (40, 42, 36, 32, 34, 44, 28, 50, 48, 20, 26, 46, 30) of one embodiment of the module include a CPU (20), serial interfaces (32, 34), a parallel interface (36), a hard drive interface (42), a floppy disk interface (40), a keyboard interface (28), and a flash memory (44).
